

Leica DISTO™ and Lino case

The professional set for easy measuring and aligning

This set was specially put together for internal finishing works. It contains everything you need for precise and reliable measuring and aligning. The Leica DISTO™ D210 laser distance meter, the Lino L2 cross line laser and the TRI 70 staff are safely stowed, ready for action, in the robust, attractive and functional case. Nothing can get lost or forgotten, thanks to the clear arrangement of the devices in the case. The instruments are compact, easily carried and simple to use.

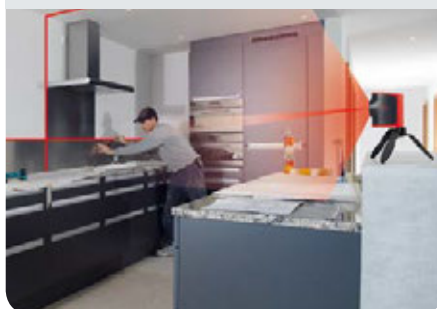

Laser distance meter Leica DISTO™ D210

The small and handy entry model has many interesting functions and yet is simple and easy to operate. Addition and subtraction as well as area and volume functions allow you to calculate quantities quickly and reliably.

Cross line laser Leica Lino L2

The Leica Lino L2 projects outstandingly visible laser lines, precisely, quickly and simply – leaving you to concentrate on your work. Time-consuming and laborious drawn lines are a thing of the past.

Tripod Leica TRI 70

The compact, strong and handy tripod for everyday use.

Robust, attractive and functional case
